SUSTAINABLE FOOD, WATER, AND ENERGY
LIMA, CUSCO, & FRIAS, PERÚ
MAY 26–JUNE 26, 2019
APPLICATION DEADLINE: FEBRUARY 1, 2019
Rolling admissions; program may fill before deadline
Apply at udayton.edu/edabroad

SUMMER STUDY ABROAD PROGRAM

Lima, Cusco and Frias provide students with exceptional locations to explore the impact of climate change on the environmental and nutritional status of urban and rural Peruvian populations. The program offers students a unique opportunity to connect, travel, and learn with researchers and students from the Pontificia Universidad Católica del Perú. Students will assess different populations' nutritional needs and develop a sustainable and culturally-appropriate solution to addressing the identified need. Through this program, students will travel to different sites to obtain a robust overview of the environmental impact at the local level, as well as community resources and strengths to addressing this issue. Students will not only consider the role of energy in sustainable development, but also the role and responsibility of Perú and the US in contributing to the mitigation of climate change.

COURSES

SEE 325 Sustainable Development Goals (*3 credits*)

HSS 384 Food Justice (*3 credits*)

HSS 302 Community Nutrition (*3 credits*)

UDI 310 MAXIE: Experience (*1 credit; required*)

Students must enroll in a minimum of 4 credit hours.

Some courses may satisfy select CAP requirements. Consult DegreeWorks and/or your academic advisor.

PROGRAM COST: $6,560*
*Cost breakdown, inclusions, and other personal expenses listed online at **go.udayton.edu/FLPcosts**
