SUMMER STUDY ABROAD PROGRAM

This program begins with approximately two weeks in London, one of the world's most important financial capitals and one of the most visited, vibrant, culturally diverse cities in the world. Summer 2019 will mark three years since the historic Brexit vote to leave the European Union, allowing students to explore the implications for local European communities and organizations. En route to Dublin, Ireland, students will explore additional sites of relevance. Over the final two weeks, Dublin, Ireland will provide the backdrop for examining trends and historic events in our global economy. Students can examine the city's continuing recovery from the 2008 recession through the lens of current economic issues and challenges in the U.S.
